

CirclnWater

Supporting European SMEs to bring water-smart solutions to market

CirclnWater: Supporting water-smart solutions

CirclnWater is the Water-Smart Eurocluster project funded by the EU that develops and implements support measures for companies addressing the lack of water-smart solutions to promote the digital, green, and resilient transitions (triple transitions) of the European agrifood and energy-intensive industries.

What we offer:

We provide financial support to SMEs focusing on innovation, knowledge, and internationalisation activities, facilitating and accelerating the triple transitions in the sector. Our support is delivered through three lump sum schemes, offering flexibility tailored to the needs and maturity levels of SMEs' technologies, knowledge, and internationalisation aspirations. The Innovation Lump Sum and Knowledge Lump Sum packages are currently exhausted, and **the Internationalisation Lump Sum package is available from 2nd quarter of 2024.**

About Internationalisation lump sum

The Internationalisation Lump Sum targets individual SMEs offering water-smart solutions for the agrifood & energy-intensive industries, aiming to enhance their development or expansion through internationalisation efforts in North America (Canada & USA).

Co-funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Innovation Council and SMEs Executive Agency (EISMEA). Neither the European Union nor the granting authority can be held responsible for them.

The internationalisation activities are eligible if they are related to at least one of the categories below:

- Travel and accommodation for attending, registration or Exhibition stand at WEFTEC New Orleans 2024.
- Travel and accommodation for attending, registration or exhibition stand for meet-the-buyer events, international fairs/ events focused on agrifood & energy-intensive industries in North America or visiting possible clients in North America.
